

main.js

```
class App extends Component {
  render() {
    return (
      <div>
        <h1>Hello, {this.props.name}!</h1>
        <Counter />
      </div>
    );
  }
}

ReactDOM.render(
  <App name="React" />,
  document.getElementById('root')
);
```
