

selectors.js

```
export const getTagsAggregation = (state) => {  
  // some dark magic  
  
  return tags;  
}
```

Component.js

```
import { getTagsAggregation } from 'state/tags/selectors';

function mapStateToProps(state) {
  console.time('getTagsAggregation');
  const tagsAggregation = getTagsAggregation(state);
  console.timeEnd('getTagsAggregation');

  return {
    tagsAggregation,
  };
}
```
