React DevTools: Trace React Updates

The image is a screenshot of a web browser displaying a GitHub profile page for TJ Holowaychuk on the left and a React DevTools component inspector on the right. The GitHub page shows the profile of TJ Holowaychuk, founder of Apex, with 24895 followers and 163 following. Below his profile is the profile of Addy Osmani, an engineer at Google, with 22734 followers and 227 following. The React DevTools component inspector shows the component tree for a page. The selected component is <CountLabel>, which has props count: 0 and label: "starred users". The component tree shows a hierarchy starting from <Provider>, through <Connect(AppContainer)>, <AppContainer>, <div>, <h3>, and finally <CountLabel>. The <CountLabel> component is highlighted in blue. The component tree also shows a list of users, including TJ Holowaychuk, Addy Osmani, Paul Irish, Ruan YiFeng, Sindre Sorhus, Daimajia, Doug Scrookford, Mike Bostock, John Resig, Mark Otto, Evan You, Jessica Lord, Jackson Tian, James Halliday, Lifesinger, Mr. Doob, Lea Verou, Karpathy, Hakim El Hattab, John Papa, Fat, Kyle Simpson, and Isaac.
