A screenshot of a GitHub user profile for Paul Irish. It features a large thumbnail of Paul Irish on the left. To the right of the thumbnail is his name, "Paul Irish (paulirish)", followed by his bio: "Google Chrome, ❤z". Below his bio are his statistics: 22048 followers, 238 following, 253 repos, and 106 gists. A "star" button is located in the top right corner of the profile card.

A screenshot of a GitHub user profile for Ruan YiFeng. It features a large thumbnail of Ruan YiFeng on the left. To the right of the thumbnail is his name, "Ruan YiFeng (ruanyf)". Below his name are his statistics: 16442 followers, 0 following, 39 repos, and 7 gists. A "star" button is located in the top right corner of the profile card. At the bottom of the screen, there is a small "60 FPS" watermark.

A screenshot of the browser developer tools, specifically the Elements tab. The DOM tree shows the structure of a GitHub user profile page. The root element is a div with the class "__User_root__1TDLt". Other visible elements include the user's avatar, company information ("Google Chrome, ❤z"), and a toolbar with a "star" button. The "div.__User_root__1TDLt" element is highlighted with a blue selection bar. The bottom right corner of the developer tools interface shows a preview of the selected element, which is a green rectangular box with dimensions 900 x 300.

Chrome Devtools Elements Panel

The image shows three GitHub user profiles in a grid:

- David Walsh**: 22733 followers, 227 following, 284 repos, 153 gists.
- Paul Irish**: 22048 followers, 238 following, 253 repos, 106 gists.
- Ruan YiFeng**: 16442 followers, 0 following, 39 repos, 7 gists.

Each profile includes a small photo, the user's name and handle, their GitHub company (if applicable), and a "star" button.

The screenshot shows the Chrome Devtools Elements panel with the following details:

- DOM Tree:** The tree shows the structure of a GitHub user profile page. The root node is a div with class `__User_root__1TDLt`. Other nodes include `__User_avatar_2tCsH` (containing an image), `__User_info_2hzTv` (containing an h2 and a span with company information), and multiple `__CountLabel_root_2wB-8` nodes.
- Elements Tab:** The tab is selected, showing the current element being inspected.
- Styles Tab:** The styles tab is active, displaying CSS rules for the selected element. It includes a "Filter" dropdown, a "Styles" section with a list of rules, and a "Properties" section where the `__User_root__1TDLt` style is expanded. The properties shown are position: relative, margin: 15px, border: none, padding: 0, and width: 900px, height: 300px.
- Event Listeners, DOM Breakpoints, and Properties tabs:** These tabs are also visible in the Elements panel.

React Addons Perf

The screenshot shows the React Addons Perf extension integrated into the Chrome DevTools Dev bar. The interface includes a dropdown menu for selecting JavaScript or CSS, a list of starred users, and a performance monitoring section.

Starred Users:

- TJ Holowaychuk (tj)**
Apex
Founder of Apex <https://apex.sh> @tjholowaychuk on Twitter & Medium.
24896 followers
163 following
246 repos
531 gists
- Addy Osmani (adduosmani)**
Google
Engineer at Google working on Chrome & Web Platform
22733 followers
227 following
284 repos
153 gists
- Paul Irish (paulirish)**

Performance Monitoring:

- Elements, Console, Network, **Perf** tabs
- Start button
- Checkboxes for wasted, dom, inclusive, exclusive metrics
- Message: "Nothing to print. Click on 'Start' to start recording"
- FPS counter: 60 FPS
